Features and Benefits

NATIVACARE™ 8600 rice starch is an effective viscosity builder (cook up). It improves skin-feel in use and aids greasiness reduction in emulsion system. NATIVACARE™ 8600 rice starch does not set to a gel; applications that are particularly challenging in terms of texture stability over shelf life benefit from the use of NATIVACARE™ 8600 rice starch due to the inherent retro-gradation stability of waxy rice.
