

GLUTEN-FREE AND LABELS AS “RICE FLOUR”

Get superior functionality and chew quality

Introducing new **HEMECRAFT®** Create multi-functional rice flours

What if you could get high functionality, but with a gluten-free, clean label flour? Now you can with new HEMECRAFT Create multi-functional rice flours. Provide product structure and strength, reduce breakage, increase chew time or retain moisture to deliver a superior chew quality and eating experience in canned pet foods, gravies, dry kibbles, treats and biscuits.

CLEAN & SIMPLE™

IDEAS TO SOLUTIONS

Get what you need with the competitive edge of a gluten-free, clean label

Delivering the right structure and strength in your products with less breakage and increased chew time requires just-right ingredient functionality. While modified starches or other grain-based starches can provide this kind of functionality, today there is a clean label and gluten-free solution that offers fresh advantages: **HEMECRAFT®** Create multi-functional rice flours.

Chewable experiences so pleasing, they differentiate your brand

HEMECRAFT Create multi-functional rice flours offer the process tolerance, stability in low pH conditions, bland flavor and freeze/thaw stability your products need to build functional, clean label appeal — so pets can give your products a “paws up.”
