

## Supporting Our Communities

Ingredion's worldwide operations span more than 20 countries and include more than 11,000 employees living and working in our communities. We have committed to improving the lives of more than 1 million people in the communities in which we operate, and we see this commitment as part of our corporate responsibility. While global circumstances in 2020 may have limited our ability to engage face-to-face, our resolve to be a force for good was only intensified.

In addition to the efforts referenced in our sustainability report, some highlights of our recent Community Impact activities include:

- Continuing our financial support of The Global FoodBanking Network by providing \$100,000 to provide more than 1.2 million meals to those in need;
- Preparing food, clothing, and other needed supplies for a local evacuation center in the Philippines;
- Supporting the local youth soccer league in Hamburg, Germany with jerseys, training suits, and rain jackets;
- Volunteering employees from our Argo, USA facility and our corporate office worked with the Museum of Science and Industry to run experiments with more than 2,000 students and their parents to teach students about our company and help them learn how our products are made;
- Donating to the Manchester Foundation Trust in the UK in support of the National Health Service (NHS) to provide COVID-19 wellbeing packs;

- Supporting the Child Fund Mexico with a monetary donation in support of their efforts to help excluded and vulnerable children by bringing positive and lasting change to their lives;
- Providing financial support for the Yerimwon social welfare foundation in South Korea, which provides outdoor activities for disabled individuals;
- Providing 890 basic food packs to families in our communities in Colombia who were suffering from food insecurity; and
- Donating to Toys for Tots and the London (Canada) Food Bank to help support families in need during the holiday season.

These are just some of the highlights of the hundreds of activities the Ingredion family of employees engaged in to help **make life better** in our communities.
