

Identity Preservation System Certificate – Level A

We, SGS ICS France certify we have conducted an evaluation of the system :

LIMAGRAIN INGREDIENTS - Site d'Arques

39 rue Loucheur BP 30073 62507 ARQUES Cedex

has built in order to control the intakes and ensure the identity preservation of the production on the audited plant.

This system aims at ensuring that suitable steps are taken on the plant to guarantee that raw materials are not genetically modified until they are incorporated in finished products.

The non GMO nature of the final products is validated for a result inferior or equal to 0,1% by PCR screening tests (quantitative screening test followed by quantitative PCR test where needed).

The result of the audit conducted through SGS ICS having shown a global conformity rate equal to 98 % and no major non-conformance, this Certificate has been delivered.

***Audited Activity : Masa flour and functional ingredients
containing maize production.***

Certificate valid from 15/07/2021 until 14/07/2024

Date of the audit : 20/05/2021

Date of next audit : 01/05/2022
