**RE: PECINAS LOTIFICATION CRITERIA**

Valued Customer,

The lot number starts with 0001, increasing a number for each manufactured lot, being the suffix (last two digits) the number of the production line; this number starts with "-01".

For example, "0010-03", "0010" means the 10th lot of manufactured; "-03" represents that it was manufactured on the third production line, where the same raw materials are used.
