

## NON-GM

15 October 2024

To Whom It May Concern

Product(s): NATIONAL 104

We are pleased to confirm that the above referenced product(s) is produced starting from non-genetically modified organism (GMO) sources and meets the definition of the following requirements:

- Regulation (EC) 1829/2003 on genetically modified food and animal feed.
- Regulation (EC) 1830/2003 on the traceability and labelling of GMO.

In addition, this declaration is based on available of certificates such as Non-GM Identity Preserved (IP), Non-GMO Project Verified Program, other non-GMO certificates or based on supplier documentation on the source of raw materials, supplemented with other data where needed.

Thank you for your interest in Ingredion's products. Please contact us if we can be of any further assistance.

Please note this statement is provided for your information only, based upon Ingredion's interpretation of relevant legislation and data in our possession as of the date stated above. It does not constitute legal advice and is offered in good faith but without guarantee. It is therefore necessary that you determine whether the Product(s) supplied by Ingredion are suitable for your specific intended use, and fully evaluate the contents of your own end-product against the relevant prevailing legislation prior to marketing or sale, in order to determine appropriate regulatory compliance and labelling requirements. Ingredion makes no representations or warranties and accepts no liability whatsoever for the regulatory compliance of your end-products or the information herein. This statement is confidential and is not to be disclosed to, used, or relied upon by any third party. This statement supersedes all previous statements issued by Ingredion in respect of the above subject matter. All references to "Ingredion" herein should be construed as a reference to the relevant Ingredion company that supplies the Product(s) to you.
