RE: Lot Number interpretation Evanesse™ CB6194

The lot number for **Evanesse™ CB6194 - 37606H00** consists of a 5 digit manufacturing order number followed by the 3 letter product code: PCW followed by the 2 digit manufacture month and the 2 digit manufacture date. For example, if the manufacturing order number was 12345 and the lot was produced on March 3, 2020, the lot number would be 12345-PCW-0320.

Certificates of Analysis will contain the lot number consisting of the 5 digit manufacturing order followed by the 3 letter product code - the manufacture date will appear in the Date of Manufacture field on the Certificate of Analysis.

Please advise if additional information is required.
