#### **FILMKOTE<sup>™</sup> 370** modified starch 05561302

FILMKOTE<sup>™</sup> 370 modified starch is a fluidity hydrophobic surface/dry end starch used in conventional size press and film transfer applicator operations where excellent film formation, surface strength and porosity reduction properties are desired. Because of the effective film-forming properties, this product is a costeffective tool for developing oil and grease resistance in paper and board products.
