

Statement of Genetic Modification Status

TICAXAN® Xanthan 200 EC 75000839

PRODUCT IS NOT CONSIDERED GENETICALLY MODIFIED (SOURCED FROM NON-GM MATERIALS)

This product is produced without the use of genetic engineering and the products' raw ingredient constituents are not derived from genetically modified organisms. In addition, this product does not require labeling as a bio-engineered food under the United States Department of Agriculture National Bioengineered Food Disclosure Standard.

The above-mentioned product has been reviewed and falls within the following category:

Non-GMO: Sourced from Non-Genetically Modified Materials and...

- Product is properly segregated and handled to minimize risk of cross contamination
- The product complies to the EU 1829/2003 and 1830/2003 requirements for <0.9% approved traits as a result of adventitious contamination during growing, harvesting, storage, and transportation.

We recommend that each customer should obtain independent regulatory and legal advice regarding the definition of "Non-GMO" or "NGMO" as required. Each customer is solely responsible for determining the nature and content of any claims that may or should appear on its own products and is solely responsible for compliance with all pertinent legal requirements worldwide.
